

# RESTORE COLORADO BUSINESS

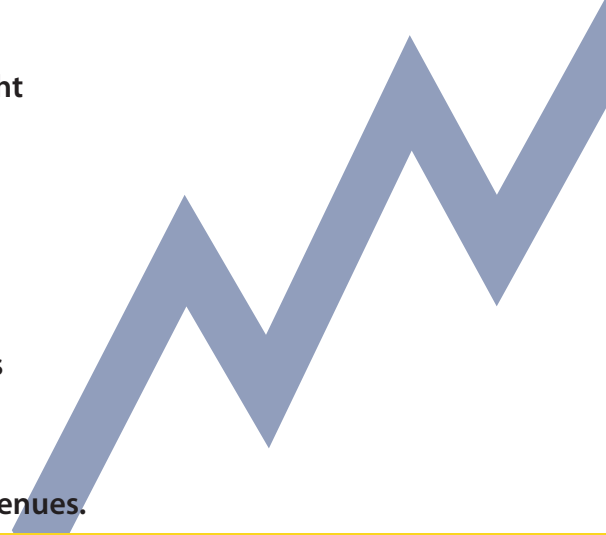

## Colorado Business Owner

We have formed a political committee in Colorado with a business focus. Over the past several years, we have seen a significant erosion of the principles of business that have made our state a great place to do business. Mandates, new fees, new regulatory oversight that is costing Colorado businesses millions of dollars and threatens our future to grow and develop.

Our mission is simple: Recruit- Nominate- Elect- true business friendly legislators and state wide office holders who will support Colorado business legislation and policy. We want Colorado to return to a business friendly environment so that business can prosper.

### Guiding Principles

- Support free enterprise system with less governmental oversight
- Reduce/simplify regulatory burden on business
- Utilize technology to gain operational efficiencies with govt.
- Seek state wide regulations to avoid multiple layers of rules.
- Repeal measures that create undue burden/fees on business.
- Restore accountability to tort system
- Preserve state programs that function well for business/citizens
- Support that business in the engine that makes Colorado work.
- Eliminate barriers to investment and encourage investment in public infrastructure utilizing existing revenues and growth revenues.

We encourage you to join us in changing the direction of this state concerning business. We will impact the candidate selection process to find and elect business friendly policy makers. This is not a short-term effort but one we must continue with for the long term.

We are looking for business owners who will not only invest in this process but who will work with us to find/recruit business friendly candidates in key senate/house races. Join us by donating \$5,000 or more to our effort to restore business and let's take back Colorado.

Restore Colorado Business is a 527/IEC committee effort and as such can receive donations from businesses and corporations without any limits on the amount of the donation. We can also expend funds to support races we deem worthy of investment in any amount as well as long as these expenditures are independent of any candidate election effort.

Our group will be made up of business owners, run by business owners with money going to races and candidates that meet our standards.

If have any questions, contact **R J Hicks** of Restore Colorado Business.
